POCKET KITCHEN

We managed to put in the best of our products into a compact kitchen, hidden behind doors.

Saving space, adding a unique surprise element to your home and filling it with a kitchen that is a fashion statement in it's own.

When we picture a kitchen, we often think of a conventional, widely used kitchen or an open kitchen in the middle. We plan to change the idea behind the repetitive ideology of style. We designed beautiful doors, we planned the best compact kitchen, which is efficient, practical and beautiful behind those doors. We've added a whole new dimension in your home to unlock behind the doors.

KITCHEN 04

This design is a beautiful combination of the best in wood and the best in stone Chugtaiz has to offer.

The colour palette in this design showcases how perfectly balanced the use of materials are, brown in its different shades, black in its glory and white in its perfect contrasts. If there is anything that is missing from your home, is this spectacular kitchen!

VENTUS ONE

DOORS

We take pride in perfecting the usage of Dekton, in terms of design and practicality. Our new product, the Dekton door, shows the finish in all its glory. Seamless and flawless!

Made in Dekton, Trillium, this 20ftx 7ft door is a marvel of superb craftsmanship in it's own. To be able to produce something this magnificent in looks, in this huge scale was a challenge. At Chughtaiz, this is what we do best, we dream big, we challenge ourselves with the impossible, and surely as always, make sure we execute our imagination in all it's well deserved glory!

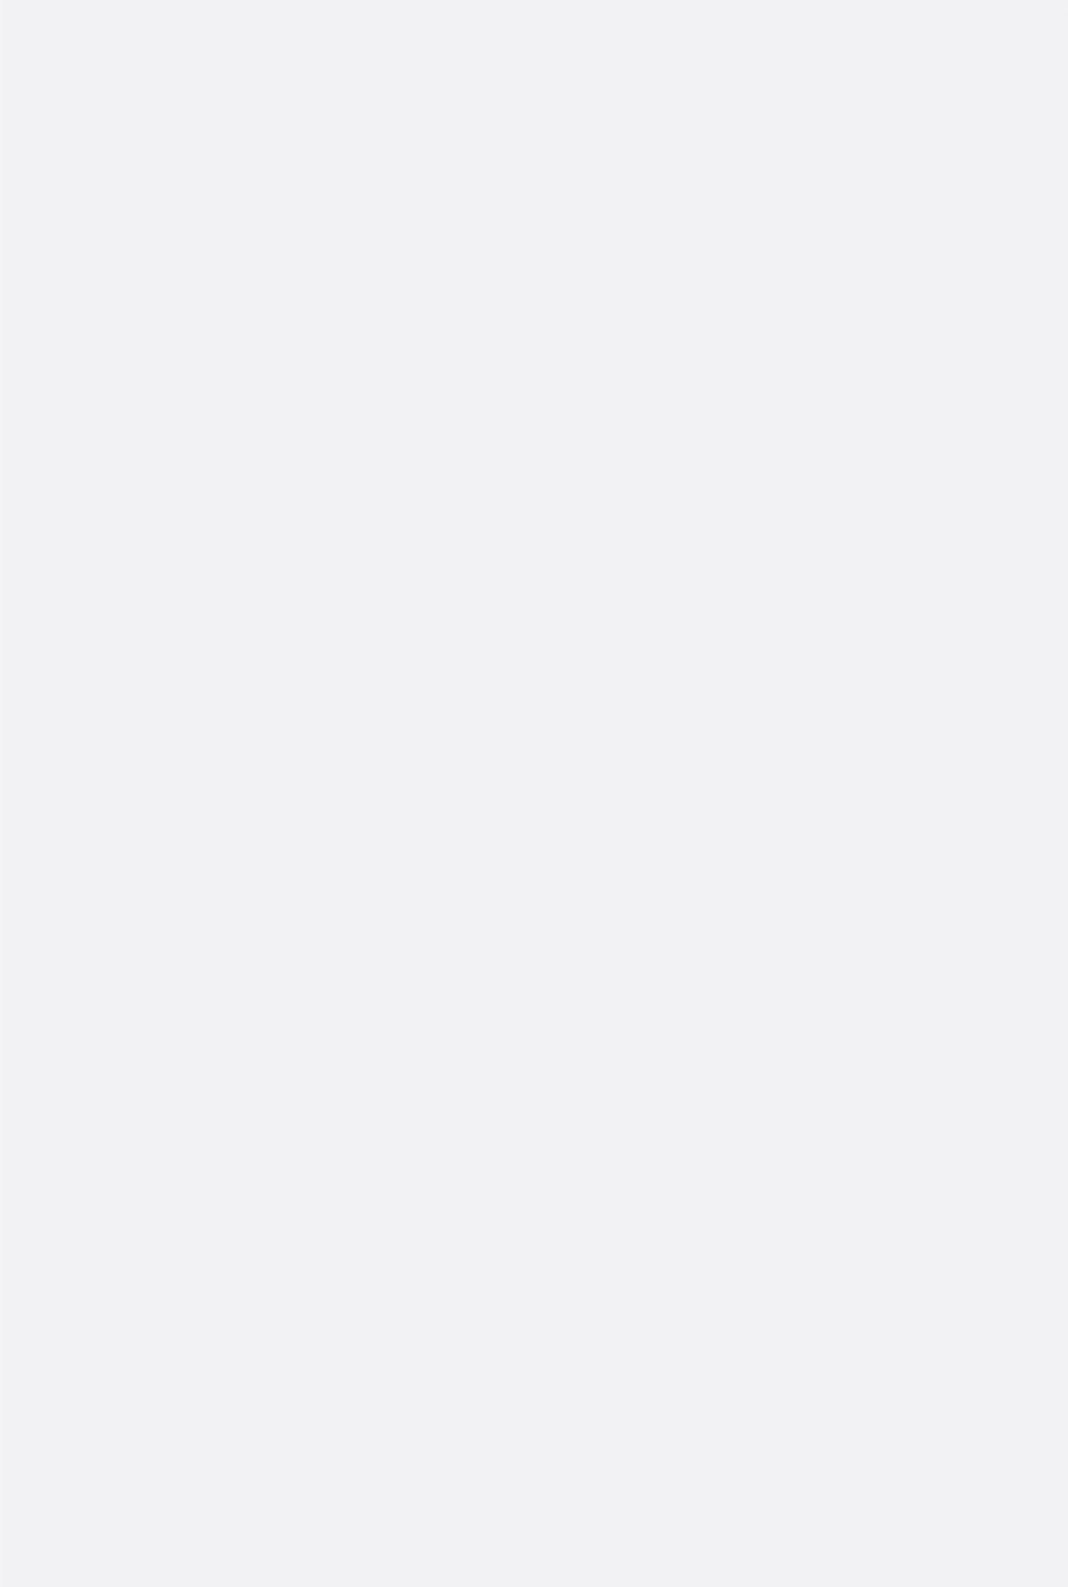

WANTINITIES

Dekton trillium is modeled into a linear vanity as well as back drop of the shower area or even the shower tray itself. All the Cosentino materials are manufactured in slab formats of more than 3 metres long by more than 1.4 wide. This enables us to cover the bathroom area with the smallest possible number of pieces, thereby obtaining greater continuity in design and better hygiene, due to the smaller number of joints.

THANK YOU
